WELCOME

4th Biennial Meeting of the International Academy for Adhesive Dentistry

December 3-4, 2021

The decision to organize a virtual meeting was not an easy task. At the beginning of 2020, I have planned an in-person IAAD meeting in December 2021 since the pandemic should be under control after 20 months. However, that is not what happened.

I have already organized some Dental Conferences as a president, but this will be my first experience in a Virtual Meeting format. Although challenging, I am learning a lot and I am very enthusiastic about this new modality of meeting!

Therefore, I would like to invite clinicians, students, scientists, and educators to participate in the Fourth Biennial Meeting of IAAD. Also, to encourage the participants to submit abstracts that can vary from clinical or laboratory research to clinical case reports. Students, young scientists, and clinicians can compete for awards in the three categories of abstracts (please check the IAAD Award rules).

The speakers were invited within the theme of this meeting: “Synergy between Adhesion and Durability” and represent the clinical and scientific expertise in “Adhesive Dentistry”. Enjoy and learn a lot at the Fourth Biennial IAAD Virtual meeting!

Marcelo Giannini

Prof. Dr. Marcelo Giannini

President, IAAD

Professor of Restorative Dentistry

Department of Restorative Dentistry

Operative Dentistry Division

Piracicaba Dental School

State University of Campinas

December 3, 2021 Friday

Moderator: Dr. Alireza Sadr (University of Washington, Seattle, USA)

9:00 AM

Opening Ceremony

9:10 AM

IAAD - The First Years – Where Do We Go From There?

Prof. Jean-Francois Roulet

University of Florida, Gainesville, USA

9:40 AM

What is Happening in the Cavity?

Prof. Junji Tagami

Tokyo Medical and Dental University, Tokyo, Japan

10:30 AM

Self-Adhesive Cements: Complex Issues of Simplified Treatment Modalities

Prof. George Eliades

2021 IAAD Honorary Member

National and Kapodistrian University of Athens, Athens, Greece

Moderator: Dr. Jin-Ho Phark (University of Southern California, Los Angeles, USA)

1:00 PM

Potential Clinical Translation of Laboratory Research on Bio-Interactive Restorative Strategies

Prof. Salvatore Sauro

University of CEU-Cardenal Herrera, Valencia, Spain

1:50 PM

Resin Cementation: Interfaces and Polymerization

Prof. Frederick Rueggeberg

Augusta University, Augusta, USA

2:40 PM

Myths and Facts in Adhesive Dentistry - An Update

Prof. Jorge Perdigão

2021 Honorary Member

University of Minnesota, Minneapolis, USA

December 4, 2021 Saturday

Moderator: Dr. Marcelo Giannini (University of Campinas, Piracicaba, Brazil)
