University of Athens, Greece

IAAD
International Academy for Adhesive Dentistry

The IAAD would like to thank the speakers for accepting our invitation!

ABSTRACT SUBMISSIONS

All individuals (IAAD members and non-members) involved in adhesive dentistry and related fields are invited to submit an abstract for consideration and presentation at the IAAD poster session in the following categories:

- Clinical Reports
- Clinical Research
- Laboratory Research

The abstract submission site will open in June.

POSTER COMPETITION AWARDS

The Poster Competition in the three categories (Clinical Reports, Clinical Research and Laboratory Research) will host three awards (Student Scientist, Junior Scientist and Clinician), but will be limited to students or residents, and young researchers or clinicians (within 5 years after their last degree). Eligible individuals are encouraged to compete for one of the awards and will be able to apply during the submission process.

IAAD POSTER COMPETITION CATEGORIES AND AWARDS

- Student Scientist: student or resident at a college or university, undergraduate, BDS/DDS, or post-graduate certificate/master's program at time of submission. The winners will receive the "Presidential IAAD Scientist Award".
- Junior Scientist: student in a PhD program or researcher within five years after their last degree at time of submission. The winners will receive the "Fusayama IAAD Scientist Award".

- Clinician: any individual within five years after their last degree at time of submission as well as to students or residents at a college or university, undergraduate, BDS/DDS, post-graduate certificate/master's or PhD program at time of submission. The winners will receive the "IAAD Clinician Award".
